MIXTURE

RESISTENTE

- Popular blend for field requiring low maintenance but still being one of the best in performance and uniformity.
- 30% less water is needed and 50% of mowing compared to standard cool season grass.
- With the incorporation of bluegrass for a better recovery and a higher density of a well knitted turf looking, dark green in both sun and shade uses.

Uses: Golf rough, racetracks, polo fields, rugby, sustainable turf with low inputs and best endurance. The most popular sod mixture.
