

### PERENNIAL RYEGRASS

# RINOVO

- · Rutger's developed variety.
- · Exceptional heat/drought/salt tolerance.
- · Gray leaf and brown patch resistance.
- · Excellent turf quality.
- · Spreading ability.
- · Fine leaf texture.

**RINOVO** is a top-quality Rutger's developed perennial ryegrass variety. The selections for **RINOVO** were collected from around the world where the parental plants were under extreme pressure from heat, salt, traffic and diseases. The resulting variety, **RINOVO**, combines resistance to all these factors with fine leaf texture and a dark green color. This makes **RINOVO** suitabe for all demanding permanent turf applications as well as outstanding performance in overseeding warm-season grass varieties. If your turf needs call for top-quality aesthetics under extreme climatic conditions turn to Rinovo - the number one performer.

Seeding rate, g/m²	20-35
Overseeding rate on bermuda greens, g/m²	150
Winter overseeding rates on tees, fairways, rough, lawns, g/m²	30-40

#### AREAS OF USE

- High-traffic and heavy.
- Wear areas.
- Professional sports turf.
- Tees and fairways.
- · Sod production.
- · Lawn and landscape.
- Home lawns.
- Top-quality overseeding.
- For warm-season turf.
- · Areas with salinity.

#### SEEDING AND OVERSEEDING

**RINOVO** readily establishes on loosened bare soil or after verticutting existing turf for renovation and overseeding. For typical new seeding applications, apply at a rate of 25-35 g/m². Periodic reseeding at 15-25 g/m². maintains density for visual appearance and durability. For overseeding dormant warm season grasses, a rate of 150-200 g/m². is suggested for gold course greens. And 35-50 g/m² for tees, fairways and roughs.

#### MAINTENANCE

**RINOVO** will form a tight knit turf under a broad range of soil types and environmental conditions, from full sun to medium shade. It will mow cleanly at heights of 10 mm and above. Due to its tillering ability and compact profile **RINOVO** can be maintained at fairway cutting heights when appropriate management practices are observed.
